When you open YouTube from an Android widget, you can only enjoy the video if it's connected to the Internet. The same situation also goes to another website with a video player on it. You may be experienced in wanting to watch a specific video, but the gadget isn't connected to the Internet. If you open the video from your computer, you can download it right away. Because you're using a smartphone device, you might be having trouble downloading it. In this case, you can use VidMate's latest APK 4.4318 (44318) 2020. VidMate File Information Last Updated: October 9, 2020 Developer: VidMate Studio Version: 4.4318 (44318) Requirement: Android 4.0 and Up File Size: 18.1 MB Uploaded: October 9th, 2020 at 10:08 GMT+07 MD5: e25601cc03020d6e403060e58090a449 SHA1:896f76dde1930e27d1d9965c40de90b993052 Vidmate app review Vidmate for Android is a video downloader app for your smartphone. This application is designed to download all media from the widget. Media is not limited to video. It also has the ability to download music to your gadget drive. It is compatible for the Android operating system. If your operating system is higher than version 2.2, it should run smoothly. The apk file for this app is available, so you can download and install the app right from the widget. The user interface of this application is simple. With the background color orange, the appearance of this application is flashy. The menu icon is in the upper-left corner of the screen. You'll also find the search icon and file downloads at the top. The screen is mostly full of videos and music designed for you. If the design is not suitable for your taste, you can use the search function. You can use the same feature if the video you want to download isn't available in the suggested section. Of course in the market, you will be able to find many types of video downloader applications. However, it is proven to be the best application among these features. There are specific reasons behind this phenomenon. Other than being easy to use, this application is also able to run smoothly. Pros: Easy to use faster downloads Just tap the icon on the smartphone home screen to start this app. The app will direct you to its main page. The app already provides you with the latest video and music trend. If you are interested in one of them, you can simply click on it. This will direct you to the download page. It may take a while to download the file you want. Speed is strongly influenced by your Internet connection. If you don't get the video or music you want to download, you can use the search feature. This feature allows you to browse multiple websites that contain music or video from a search item. Some suggestions about the search item will pop up. Tap the one you like, and it'll direct you to the download page. The downloaded file will go directly to the smartphone drive. ChangeLog VidMate App is a great tool for Android that allows you to download videos from various sites on the Internet.
